**INNOLOG to provide Portal Sustainment
and Maintenance Services for PEO GCS**

(McLean, VA) – Innovative Logistics Techniques, Inc. (INNOLOG) is proud to announce that TACOM Program Executive Office Ground Combat System (PEO GCS) has awarded INNOLOG a two year contract to provide e-Business Life Cycle Management Portal services. INNOLOG’s subcontractor, Portal Dynamics, will have a key role supporting the customer under this awarded task.

The PEO GCS e-Business Life Cycle Management Portal is a digital environment that enables collaboration and data sharing with customers, suppliers, and various organizations within the Army Lifecycle Management arena to sustain the PEO mission to manage the acquisition, systems integration, product improvement, and fielding of ground combat and support systems. The focus of the Portal is to facilitate efficient operations of the organization and support Army Life Cycle Management objectives. The Portal is an integrated, web-based suite of Commercial-Off-the-Shelf (COTS) tools that uses commercial standards and a collaborative data environment for accessing, sharing, integrating, and controlling program information within the PEO GCS Lifecycle Management Community. The collaboration capabilities of the portal have reduced the need for travel and increased employee productivity. For a program as large as PEO GCS, this yields substantial time and cost savings.

“This is a wonderful task order win” says Verle B. Hammond, President and CEO. “I want to thank, and give full credit to our subcontract, Portal Dynamics for their vital role in making this award possible. Their long standing relationship with PEO GCS was the dominant factor in INNOLOG being awarded this contract.”

About INNOLOG

INNOLOG is a leading integrator of logistics systems for homeland security, defense and state and local government agencies. INNOLOG provides proven logistics management processes and technology to ensure the secure end-to-end deployment of precisely the right mission critical materiel and personnel to the right location at the right time. Customers include the U.S. Army, U.S Navy, Department of State, Transportation Security Administration, and other defense and civilian agencies in federal, state, and local government. INNOLOG's senior management team has a diverse background in management, logistics and technology. INNOLOG, founded in 1989, is privately held, has several locations worldwide, and has an impressive record of performance and growth as a successful ISO 9001: 2000 Certified, Service-Disabled Veteran Owned Small Business. Headquartered in McLean, Virginia, INNOLOG can be found on the Web at www.INNOLOG.com.
