INNOLOG to provide Engineering and Technical Support for NRL EW Support Systems

(McLean, VA) – Innovative Logistics Techniques, Inc (INNOLOG) is proud to announce that the Naval Research Laboratory (NRL) has awarded INNOLOG a contract to provide engineering and technical support for EW support systems. The NRL is the lead development agency within the Navy for various Electronic Warfare (EW) initiatives. These initiatives include new generation EW systems as well as transitioning SBIR programs into EW related programs. INNOLOG's role at NRL is in the research and development efforts with respect to these initiatives as they relate to all aspects of surface ship EW research, development, test and evaluation. The period of performance is May 1, 2008 through April 30, 2009 with 4 one year option periods.

“This is a very important contract win for us with a very important customer, the Naval Research Laboratory” says Verle B. Hammond, President and CEO. “I am extremely proud of our team of Navy EW engineers. They have long been highly regarded by our NRL customers for their EW expertise and their dedication to customer support. The award of this contract is a testimony to how well they have done their jobs, on INNOLOG's behalf, over the years.”

About INNOLOG

INNOLOG is a leading integrator of logistics systems for homeland security, defense and state and local government agencies. INNOLOG provides proven logistics management processes and technology to ensure the secure end-to-end deployment of precisely the right mission critical materiel and personnel to the right location at the right time. Customers include the U.S. Army, U.S Navy, Department of State, Transportation Security Administration, and other defense and civilian agencies in federal, state, and local

government. INNOLOG's senior management team has a diverse background in management, logistics and technology and includes several retired high-ranking Army, Navy and Coast Guard officers with a combined 150 years of military logistics management experience. INNOLOG, founded in 1989, is privately held, has several locations worldwide, and has an impressive record of performance and growth as a successful minority business enterprise. Headquartered in McLean, Virginia, INNOLOG can be found on the Web at www.INNOLOG.com.
