INNOLOG Wins A Port Security Contract Award from the VA Port Authority

(McLean, VA) – Innovative Logistics Techniques, Inc. (INNOLOG), a leading integrator of logistics systems for homeland security, defense and state and local government agencies, is a key part of the winning team on a recently awarded contract with the Virginia Port Authority (VPA) to provide Port Security and supply chain logistics expertise for a period of up to ten years. INNOLOG will serve as a subcontractor to Zel Technologies (ZelTech) providing system design, integration, and implementation of a wide variety of maritime and port security enhancements for the VPA.

The Virginia Port Authority (VPA) recently received several Port Security Grants from the Department of Homeland Security for the establishment of an integrated security system that enables the entire Hampton Roads port community to achieve effects-based, technology-enhanced security as rapidly as practicable. “We look forward to working with ZelTech and applying our Homeland Security expertise in the maritime arena,” says Albert Sabol, Director, Homeland Security Division (Maritime Programs). “As one of the few companies actually doing port security work, it is important that we continue to build upon the momentum from the assistance we provided the Transportation Security Administration last summer during the Strategic Airport Security Rollout Program,” added Mr. Verle B. Hammond, President and CEO of INNOLOG. “INNOLOG is equipped and ever ready to lend our expertise to securing our nation against potential threats to national security and look forward to working with ZelTech and the Virginia Port Authority.”

About INNOLOG

INNOLOG is a leading integrator of logistics systems for homeland security, defense and state and local government agencies. INNOLOG provides proven logistics management processes and technology to ensure the secure end-to-end deployment of precisely the right mission critical materiel and personnel to the right location at the right time. Customers include the Transportation Security Administration, U.S. Army, U.S. Air Force, U.S. Coast Guard, U.S. Navy and numerous other defense and civilian agencies in federal, state and local government. INNOLOG's senior management team has a diverse background in management, logistics and technology and includes several retired high-ranking Army, Air Force and Coast Guard officers with a combined 150 years of military logistics management experience. INNOLOG, founded in 1989, is privately held, has 29 locations worldwide, and has an impressive record of performance and growth as a successful minority business enterprise. Headquartered in McLean, Virginia, INNOLOG can be found on the Web at www.INNOLOG.com.
