INNOLOG Leads Operation Safe Commerce Efforts in NY/NJ and Seattle-Tacoma, WA

The Department of Homeland Security and the Department of Transportation recently awarded Innovative Logistics Techniques, Inc. (INNOLOG) two separate contracts with an aggregate value of \$3.7 million in grants under the Transportation Security Administration's Operation Safe Commerce Initiative. INNOLOG is one of several companies that will provide an innovative demonstration of techniques to increase the security of container shipments for the load centers of New York/New Jersey and Seattle-Tacoma, WA. INNOLOG is well known for working with its customers to find the appropriate solution for each unique problem. Over the next year, the INNOLOG-led team will demonstrate the feasibility of securing and tracking containers from the point of origin through the supply chain, and to the point of destination.

"This is a tremendous opportunity for INNOLOG to expand its enviable reputation in the Homeland Security business, which was effectively demonstrated last year through our support to TSA in the Strategic Airport Security Rollout Program." says Verle B. Hammond, President and CEO of INNOLOG. "We look forward to lending our expertise to securing our nation's ports against potential threats to national security."

About INNOLOG

INNOLOG is a leading integrator of logistics systems for homeland security, defense and state and local government agencies. INNOLOG provides proven logistics management processes and technology to ensure the secure end-to-end deployment of precisely the right mission critical materiel and personnel to the right location at the right time.

Customers include the Transportation Security Administration, U.S. Army, U.S. Air Force, U.S. Coast Guard, U.S. Navy and numerous other defense and civilian agencies in federal, state and local government. INNOLOG's senior management team has a diverse background in management, logistics and technology and includes several retired high-ranking Army, Air Force and Coast Guard officers with a combined 150 years of military logistics management experience. INNOLOG, founded in 1989, is privately held, has 29 locations worldwide, and has an impressive record of performance and growth as a successful minority business enterprise. Headquartered in McLean, Virginia, INNOLOG can be found on the Web at www.INNOLOG.com.
