

## **SOLUTION ARCHITECT**

*Fairfax, VA*

**Education:** Bachelors Degree, information systems, computer science, information technology or a related discipline. Certifications related to system and network architecture through popular technology providers such, as Cisco and / or Microsoft are desired.

**Duties:** Responsible for understanding internal and external customer needs, and designing computer and network systems that allow customers to implement solutions for their technology business applications. Requires the ability to perform system and network modeling, analysis and planning to implement solutions that will meet business needs within financial budget guidelines. This will include researching software and hardware products and determining “best solutions” and prices to meet business requirements.

**CLEARANCE MAY BE REQUIRED.**
